Health and Social Care Certification Level 3

What's Covered in the Course?

The Health and Social Care Certificate course was created to give students all they require to step into this thriving industry.

Upon completing the course, you can decide if the role of a carer is right for you, or whether you want to seek out further educational opportunities in the carer field. The carer course covers the following:

- The laws and regulations that are applicable to those who work in healthcare;
- What a carer is and how they influence the economy;
- An introduction to the important publication: 'The National Carers Strategy';
- How to properly handle heavy loads manually, in order to avoid injury;
- Who vulnerable adults are and the tools available, in order to help keep them safe;
- How infections spread and what your team members can do, in order to avoid them;
- The proper way in which to perform CPR and how this invaluable tool can help save lives;
- How to operate a defibrillator, when someone is going into cardiac arrest;
- The countless mental illnesses that an individual can suffer from and how the mental health field is rapidly evolving;
- The regulations in place, when it comes to carers working with children.
